

VALPERCA

WALLISER BERGWASSER FISCHZUCHT

Fish farming operator

in Susten & Raron in the canton of Valais/Switzerland

Valperca SA, the leading pike perch and perch producer in Switzerland, is looking for a fish farming technician for its warm-water RAS grow-out facility.

We offer:

- A varied job in the field of state-of-the-art aquaculture technology combined with a high degree of personal responsibility
- The opportunity to further develop your knowledge in the operation of a large recirculation system or to learn new things
- A full-time position in a dynamic, multicultural team
- Entry by arrangement
- A small, highly motivated team full of energy that is looking forward to meeting you!

Main tasks include:

- Work in production (e.g. feeding, grading, cleaning)
- Monitoring fish stocks and important plant parameters
- Assistance in the maintenance and repair of technical equipment
- On-call and weekend duties alternating with colleagues
- Assist in processing when needed

Preconditions:

- Reliability, commitment and physical strength
- A strong sense of responsibility and respect for the animals
- Ability to work and positively communicate in a team and to work independently
- Willingness to learn and the will to understand the processes in the plant
- Experience in and creative mechanical problem solving as a plus
- Good level of German and/or English is required
- Driving license is needed
- Swiss or EU citizenship is mandatory for obtaining a work permit for this position

Please send your **motivation letter, resume, and your possible start date** to lilian.chiang@valperca.ch. We review applications on a rolling basis and look forward to hearing from you.
